**Table 1 (continued):** Socio-demographic characteristics of the survey sample by episodic and chronic migraine type.

| Employment/education               |    |      |     |      |     |      |  |
|------------------------------------|----|------|-----|------|-----|------|--|
| Student                            | 1  | 0.8  | 13  | 3.2  | 14  | 2.6  |  |
| Stay at home carer                 | 8  | 6.8  | 14  | 3.4  | 22  | 4.2  |  |
| Retired                            | 6  | 5.1  | 22  | 5.3  | 28  | 5.3  |  |
| Not employed, not looking for work | 16 | 13.6 | 18  | 4.4  | 34  | 6.4  |  |
| Not employed/looking for work      | 6  | 5.1  | 4   | 1.0  | 10  | 1.9  |  |
| Employed part-time                 | 30 | 25.4 | 94  | 22.8 | 124 | 23.4 |  |
| Employed full-time                 | 42 | 35.6 | 208 | 50.5 | 250 | 47.2 |  |
| Missing data                       | 9  | 7.6  | 39  | 9.5  | 48  | 9.1  |  |

<sup>&</sup>lt;sup>1</sup>3/8 people who responded with "another gender" indicated their gender: Non-binary, Pansexual, Gender queer (AFAB)

Figure 1: Days of activity missed in the last 3 months because of headaches.

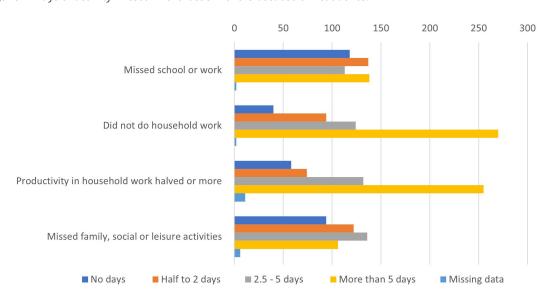

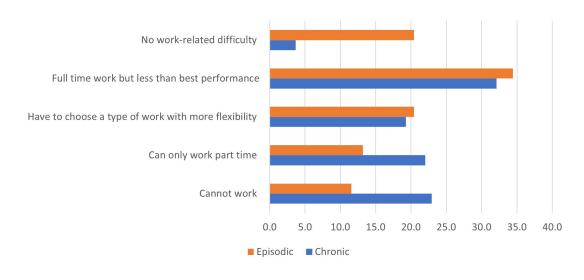

Figure 2: Impact of migraine on work, proportion by episodic and chronic migraine type.

**Table 2:** Recommendations for supporting people with migraine.

| Recommendations for supporting people with migraine |   | Supporting quote or information  |  |  |  |  |
|---|---|--|--|--|--|--|
| Societal  | More understanding, education and awareness for the general public                        | "More awareness in how debilitating it is; you can't just drink more water, rest, etc. It lasts days and it is not just the pain, though that can be very bad, [it's] that other symptoms come with it." |  |  |  |  |
|   |   | "I feel like I live with a made-up illness, constantly having<br>to over-explain myself and try to convince people that it's<br>a real condition."   |  |  |  |  |
|   | Recognition of migraine as a significant, complex neurological condition causing          | "People do not understand and think it's just a headache.<br>It is not seen as a serious neurological disease."  |  |  |  |  |
|   | disability  | "If it were considered a disability, I feel like I would be treated differently."  |  |  |  |  |
|   | Better support for people who can't work full-time or at all because of migraine (e.g., a | "I'm unable to work, yet don't qualify for a sickness<br>benefit."   |  |  |  |  |
|   | benefit for people with a health condition or disability)                                 | "Disability financial support (with a working partner I am ineligible for any support), as migraines are so debilitating that I feel incapable of working."  |  |  |  |  |
| Morkplace ow  |   | "Ability to have sick days when needed without guilt."   |  |  |  |  |
|   | Better sick and annual leave entitlements   | "Migraine leave for work. It takes a few days for me to get back to normal."   |  |  |  |  |
|   | Accommodation for people with migraine to manage their environment to avoid triggers.     | "Natural light in workspaces. Migraine-specific occupational health workplace assessments of computers and workstations/lighting."   |  |  |  |  |
|   |   | "Working with my workplace to reduce triggers such as exhaust fumes."  |  |  |  |  |
|   | More understanding and awareness of   | "Workplaces see migraines as simply a headache and<br>mine tends to put pressure on me to work despite my<br>migraines being completely debilitating."   |  |  |  |  |
|   | migraine disease in workplaces  | "Employer insisted I get a medical certificate any time<br>I had one. Despite the cost and difficulty to do so while<br>experiencing a migraine."  |  |  |  |  |
|   |   | "I work from home so that removes the biggest issue, as I can just sleep when I have a migraine and work flexibly."  |  |  |  |  |
|   | Provide flexible work and education options   | "Having flexible teachers who understand how debilitating they are and help with setting work to catch up at home."  |  |  |  |  |
| Health  | Access to more treatment options  | "Get new drugs that mean people can work We would rather work and pay taxes and pay back the cost of those drugs than be sick and costing via healthcare, welfare and more."                             |  |  |  |  |
